

February 21, 2019 is Every Smile Counts Day!

**On this day, we'll donate a
portion of our national sales
to Dental Lifeline Network.**

EverySmileCountsDay.org

Millions of Americans are unable to smile, work or live full lives due to significant dental concerns. Dental Lifeline Network (DLN) provides the care they need.

DLN connects those who cannot afford dental care, people with disabilities or who are medically fragile, and the elderly to its Donated Dental Services (DDS) program. DDS includes a national network of volunteer dentists and laboratories that provide free, comprehensive dental treatment.

We are proud to support this remarkable organization.

You can help, too!

Plan to make your supply and equipment purchases on February 21.

Contact your sales rep today to make sure your purchases are set for Every Smile Counts Day.

Through your commitment and generosity, DLN will be able to serve more people in need. Because every smile – *and every person* – counts.

Every dollar donated to DLN generates nearly \$9 in care through DDS. This program is efficient, effective and, in many instances, life-saving.

The need for DDS is great, as more than **11,200 people** are currently on a waitlist to receive services.
