YOU CAN CHANGE A LIFE

If you are a dentist or a lab interested in providing charitable care to those in need—we want your help. From clearing up painful dental infections and helping others eat again—volunteering with Dental Lifeline Network's Donated Dental Services (DDS) program will make a life-changing difference.

For many adults, right here in our own community, dental care is not an option. Dental Lifeline Network is looking for dentists who can change this.

"Today I ask you to join me in donating your time for an important cause: Dental Lifeline Network (DLN), a strategic partner of the American Dental Association. The goal is to help our country's most vulnerable residents get much-needed dental treatment. These are our friends and neighbors who are elderly or disabled or medically fragile, and can neither afford treatment nor obtain public aid."

Dental Lifeline Network is a national nonprofit and strategic partner of the American Dental Association. More than 14,500 volunteer dentists and 3,300 laboratories participate in DLN's Donated Dental Services programs nationwide.

OUR MISSION

We help the country's most vulnerable residents get much-needed dental treatment. These are our friends and neighbors who are elderly or disabled or medically fragile, and can neither afford treatment nor obtain public aid.
