

“
This is
Why WE Dental.
”

Empower Lives, Empower Teams.

Are you part of a dental support organization or group practice with a heart for giving back?

Dental Lifeline Network invites you and your team to become a driving force for positive change through our Donated Dental Services (DDS) program.

By volunteering you'll bring smiles, hope and a brighter future to those who need it most.

“

It's beyond the ownership, beyond the mentorship, and the education because how are you giving back to the community? DLN is a way I could give back and I'd love to make more emerging groups aware of what we do and how to get involved.
