

Partnership Announcement Social Media Post Copy

We're proud to announce our partnership with Dental Lifeline Network!

Through DLN's Donated Dental Services (DDS) program, volunteer dentists provide comprehensive dental care to people who are elderly, medically fragile, living with disabilities, or veterans.

DLN makes volunteering simple. Dentists treat patients in their own offices, on their own schedules, with donated lab fabrications and specialist support when needed.

We're honored to support this mission and expand access to life-changing care!
