

Partner Impact Highlights

FALL 2026

THE IMPACT OF YOUR SUPPORT

Your partnership does more than provide vital support to Dental Lifeline Network's Donated Dental Services (DDS) program; it restores the dignity and oral health of vulnerable individuals who have nowhere else to turn for help. Our vision is for all adults to have access to lifechanging dental care.

“

“Today—on her birthday, no less!—we completed treatment for Shirley. She was so excited and it was a joy to provide donated dental treatment in our office. DLN makes the process so smooth and simple.”

Dr. Rebecca Warnken
DDS Volunteer

”

Bob's Story

Bob, a U.S. Marine veteran, spent years struggling with severe dental issues, unable to afford the critical care needed to restore his oral health. Numerous broken teeth caused physical pain and a reluctance to smile until a team of DDS volunteers, including Dr. Steve Gorman, provided him with the comprehensive dental treatment he needed. Now, Bob is smiling once again and living pain-free!

Teacher's Smile Restored Just in Time for Birthday

Before severe health complications forced her to stop working, Shirley was a dedicated third-grade teacher. Living under financial hardship, she suffered daily pain from missing and cracked teeth. Through the DDS program, volunteer dentist Dr. Rebecca Warnken worked with a volunteer lab to provide the lifechanging care that Shirley needed to finally eat pain-free, just in time for her birthday!

“

“It's the best birthday present ever, and nothing is going to hold me back now. I am so happy about it,” shared Shirley.
