

Partner Impact Highlights

SPRING 2026

THE IMPACT OF YOUR SUPPORT

Your partnership does more than provide vital support to Dental Lifeline Network's Donated Dental Services (DDS) program; it restores the dignity and oral health of vulnerable individuals who have nowhere else to turn for help. Our vision is for all adults to have access to lifechanging dental care.

“

“We have the ability to actually change someone's life by giving them their smile back. I volunteer with Dental Lifeline Network to give back to the community and give more care access to people in need.”

”

Dr. Jeff Lodl
DLN • CO State Board Chair
and DDS Volunteer

Charlene's Story

After years of struggling with dental pain, Charlene, a veteran living with disabilities, finally received the care she deserved. Thanks to the generosity of DDS volunteer Dr. Diana Tedder and Dothan Crown and Bridge, Inc., Charlene was gifted a full set of dentures just in time for her birthday! This lifechanging restoration has given Charlene her health, her smile, and her hope back.

Candace's Story

When Candace, a DDS patient with Down syndrome, faced complex barriers to traditional oral health care, a dedicated team of DDS volunteers stepped in with a custom solution. Through the coordinated efforts of Dr. John Redd and Bayshore Dental Studio, Candace received the dental treatment that finally allowed her to eat pain-free and smile with confidence.

“

“I am just so thankful that they gave her a smile again,” said Patricia, Candace's mom. “Now Candace finally shows off her teeth.”
